The International Exhibition and Conference for the Solar Industry

Intersolar Mexico is the leading platform for technology trends and B2B networking in Mexico's solar market. It focuses on photovoltaics, solar heating and cooling technologies, and energy storage. Together with the co-located events The GREEN Expo® and Aquatech Mexico, it has solidified its position as the largest gathering of professionals in the renewable energy and cleantech industry in Mexico since the debut in 2019.

In 2025, the events hosted 400 exhibitors as well as 9,400 visitors. The seventh edition of Intersolar Mexico will take place from September 1 to 3, 2026 at Centro Banamex, in Mexico City.

Premium Partners

ANES

Mexico's leading renewable energy association, uniting 600+ experts from academia, industry, and government. It represents Mexico within the International Solar Energy Society (ISES).

ASOLMEX

Mexico's main PV association, representing 100+ companies across the solar value chain. It drives national growth in large-scale and distributed solar generation, energy storage, and public-private collaboration.

BSW

Germany's leading solar and storage industry association with 40+ years of experience, promoting investment security, innovation, and collaboration across the global solar market.

HEAT CHANGERS

Independent global initiative promoting solar thermal technologies worldwide. It showcases success stories advancing decarbonization of heat, drives awareness and unites leading expert voices.

PARALLEL EVENTS

Solar Thermal at Intersolar Mexico

The solar thermal market in Mexico has had a constant growth over the past three decades. It had the highest annual growth rate worldwide from 2023 to 2024 (14%), is the global leader for solar heat in industrial processes, the second largest solar water heating market in Latin America, and the fourth largest market for solar swimming pool heating.

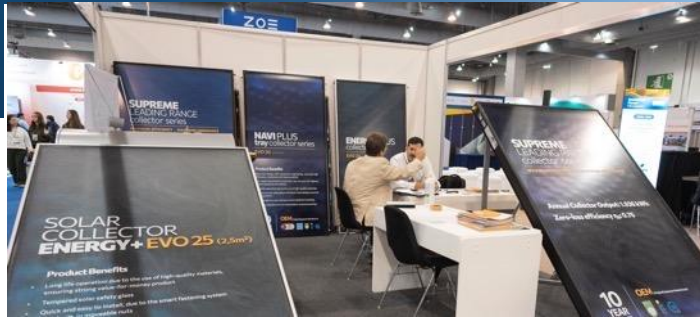

Exhibit at the Innovation Hub!

- **Business opportunities** for manufacturers of solar thermal collectors (low and high temperature) and suppliers of system components
- **Key countries:** China, Greece, Turkey, Spain, India, Germany

Apply for a speaking slot!

- Solar thermal is one of the focus areas of the **Conference Program** (CfA opens in Feb, 2026).
- Commercial presentations from exhibitors at the **Innovation Forum** (CfA opens in Spring 2026)

Meet the solar thermal community!

- **Promotion** of solar thermal content and exhibitors via Heat Changers, prior during and after the event.
- **Networking** with local experts and stakeholders (private and public sector)
